

Student Computing Resources and Internet Access Consent Form

Hamilton Southeastern Schools desires to fairly and consistently address the issues that arise with student technology usage. While it is recognized that students have freedom of expression, it is not absolute. In the interest of preserving school order and safety, the HSE School Board has established a policy (I05.03) and guidelines (I05.3.1) for technology usage. The goal of these guidelines is to inform students, parents, and educators how the Board of School Trustees and the school corporation will define student conduct with respect to the use of technology that could result in denial, suspension or expulsion. Indiana State statute, Indiana Criminal Code, and U.S. Supreme Court decisions are used in establishing these guidelines.

Computing resources and Internet access is provided to facilitate communications in support of research and education both curricular and extracurricular. To maintain eligibility to this access, students and parents must be in support of, and consistent with, the educational objectives and policies established by Hamilton Southeastern Schools.

The use of any technology resources in Hamilton Southeastern Schools is a privilege, not a right, and it is subject to regulation and monitoring. Violation of any school rules and corporation policy may result in denial and disciplinary actions. Students and parents will be informed about disciplinary action to be taken in cases of misuse and/or abuse of technology.

Situations which will be considered in determining if an individual has violated the technology usage policy are as follows:

A student shall not create or otherwise access technology content that:

- a) violates any school rule, including any student discipline rule and any school policy;
- b) causes or is likely to cause a substantial and material disruption to the school;
- c) is a “true threat”;
- d) is considered as lewd, vulgar, indecent or plainly offensive;
- e) generates a legitimate educational concern; or
- f) is considered an unlawful activity.

Details and definition to the above situations are found in HSE Technology Usage Policy I05.03 and Guidelines I05.3.1.
