

Mudsock INVENT-athon

Event

VS.

The Mudsock Inventathon will challenge teams of FHS and HSE students to invent a product that solves a real problem in the world using a kit of supplies from Massachusetts Institute of Technology (MIT). Students will race the 4-hour clock to brainstorm, build, test, and optimize their invention at Launch Fishers. The kicker is students will not know the theme or challenge until the day of the event and school-based teams will be formed randomly. This exclusive event will be limited to the first 30 students to sign up (due to limited supplies) with equal participation from each school. Photos and videos of inventions will be shared on social media platforms and MIT will award prizes to top competitors. Sign up below. Even if you do not register in time to be selected, please join us as an audience member and fan to cheer on your peers.

Saturday September 16th
Noon- 1 PM- Registration
1 PM- Challenge Announced
1 PM-5 PM- Competition
5 PM- Winners Announced

Hosted at Launch Fishers
12175 Visionary Way, Fishers, IN 46038
